

Medicare Plans-those with Pre Existing Conditions, Diabetics Heart Disease, Cancer and more

Exciting new plans and improved coverage's are soon to be released prior to the Medicare AEP or Annual Enrollment Period starting in October. AEP is when Medicare beneficiaries can enroll, add, change or drop select Medicare coverage's

BOCA RATON, Fla. - Sept. 4, 2020 - [PRLog](#) -- Individuals on Medicare need to be aware of updates and changes. When benefits change individual's may not get improved coverage's automatically. It is important to check annually and be sure you get the best plan that is available for your needs.

Those with Pre-Existing Conditions need to pay special attention, due to recent governmental actions Medicare Advantage subscribers can benefit from the improvements, many at no cost if they request them.

Our Government has learned that keeping people healthy is a far better solution than hospitalization where the cost gets passed on to taxpayers. The need to cover pre-existing illnesses is greater than ever, Medicare health plans accept Pre Existing Conditions and have special coverage's for those who need it, many at no cost with great benefits.

People may get confused by a telephone solicitations; some are salespeople who only focus on a few options. Today with the high cost of medical treatment and unsuspected viruses everyone needs to have a good health plan. Seniors are fortunate the US Government working alongside private Insurance carriers have designed multiple excellent health insurance plans, many at no cost with great benefits.

One Medicare Advantage or Medicare Supplement Plan may not fit everyone's needs. Those with medical conditions need to be informed and should work with a knowledgeable person who specializes in Medicare to help guide them. Locate someone who will be around if needed in the future.
