BOCA RATON, Fla. - July 30, 2020 - PRLog – Many who venture onto the Government Medicare website are confused and have difficulty understanding plan coverage's and costs. After diligent efforts Cary Nagdeman a licensed Professional is authorized and will be happy to educate and share simple Medicare, Medicare Advantage and Medicare Supplement information solutions with you.

Those who have Medicare and additional coverage options can easily review the new options and opportunities available compared to the plans many have had for years. With all the changes in healthcare in the last 12 months it is crucial that people keep up to date on what is the best for them. Companies for 2020-2021 have added additional coverage's to many existing plans. Unless you make the effort to be included you may not get the additional benefits available.

Medicare Information

Many Medicare Advantage Plans have great coverage's, several with zero premiums, unfortunately not all are equal. If you have special needs like a Heart Condition, Diabetes or Cancer to name a few, there are special plans you should be aware of. Veterans can now get coverage with private physicians outside the VA for treatment at no cost, no longer a need to wait for an opening at VA.

As recently reported, approximately 10% of additional Medicare coverage's are a Medicare Advantage Plan. It is forecasted that by 2030 40% of all additional Medicare Insurance coverage will be a type of Medicare Advantage Plan. This is primarily due to the low or zero premiums of the Medicare Advantage Plan's and their added benefits. Government and Insurance Companies has learned it cost effective and best to keep people healthy.

Individuals with medically compromising conditions like Cancer or Diabetes may choose to remain on a Medicare Supplement (Medigap) Plan. The choice is yours; Do You Have the Best Coverage Available? Take advantage of a No Cost, No Obligation "Simple" Medicare online comparison.
