Medicare Check your Coverage – Open Enrollment Starts Oct 15th- MedicareInfoUSA.com

It's that time again. Medicare has some exciting improvements. Lower Prescription Costs, improved coverage's, specialists, OTC Non Prescription medicines, telemedicine, organ acquisitions and more.

By: Cary Nagdeman

DELRAY BEACH, Fla. - Oct. 14, 2020 - PRLog -- Don't put off your annual review of your Medicare Advantage or Medicare Supplement plan. Be aware of changes and improved coverage's. In some cases if you do not sign enroll for improved coverage's you may not get them. In 2020 there are approximately 414 more Medicare Advantage plans offered than were available in 2019, a 15% increase. Be cautious consult a professional.

Compare or choose your plans coverage's based on your needs not what a salesperson tries to sell you. There are plans available for Special Needs like Diabetes that covers insulin, Heart or other rehabilitating diseases. Other Governmental subsidies are available like LIS (low income subsidy), ask a qualified Medicare Professional for details.

Whether you are on a no cost premium plan or a Medicare Supplement Plan that has monthly charges coverage's not all plans are the same. A company that has a good track record and a stable directory of Doctors is crucial. How long has the Plan been around and what is its Star Rating (1-5). No one likes to switch Doctors or when plans get cancelled. Consult a Professional to ask if your Doctor is included and any other details that pertain to your health.

For a better understanding it is recommended that you speak to a professional to better understand your medical situation. Enrolling online or over the phone may put you in a compromised situation, take the time and ask questions.

Cary Nagdeman is Senior specializing in Medicare, he has been a licensed Insurance Professional for five (5) decades. As a Senior with preexisting medical conditions he knows how important Medicare and additional coverage is. For more information call, email, or go online. <mailto:MedicareInfoUSA@gmail.com>
